2024: Transforming with Purpose, Growth, and Impact

“Our mission is to help teams around the world gather insights and information that inspire better decisions, create experiences people love, and drive business growth.”

Eric Johnson
Chief Executive Officer

Reflecting on 2024, I would sum up the year in one word: progress. We embraced transformation on multiple fronts—expanding globally with new office locations in India and Costa Rica, shifting how we leverage data to make more informed decisions and create greater business value, refining our brand, welcoming new folks to our team, and making significant advancements in both our product and infrastructure. All in all, these changes not only enhanced customer experience but also positioned us to become a better organization and a better business entering 2025.

One of the greatest strengths of our products has always been their ability to facilitate meaningful communication. Our mission is to help teams around the world gather insights and information that inspire better decisions, create experiences people love, and drive business growth. In a complex and ever-changing world, listening to a wide range of voices and acting on their insights is more critical than ever. I could not be more proud that our product continued to enable organizations and individuals to collect feedback that drove real and positive change.

In 2024, we didn’t just improve our product—we embodied its values. Our commitment went beyond what we built; it was reflected in our dedication to social impact and fostering an inclusive workplace based on equal opportunity for all. We brought these values to life through SurveyMonkey Together, aligning our business ethics, philanthropic efforts, and tangible initiatives to drive meaningful change.

In our business, everyone knows that the quality of your research outcomes depends on the diversity of your sample—without it, your findings risk being incomplete or biased. A strong, representative sample is the foundation of reliable research. And so we remained committed in 2024 to building a workforce that reflects the world we

“Our greatest opportunity is to build a business that truly matters.”

serve, ensuring equitable opportunities for all. As we scaled our teams in Costa Rica and India over the course of 2024, we saw firsthand how fostering the diversity of people, ideas, and experiences can drive our ability to serve our global customers.

This belief in driving positive impact also extended to our social impact and philanthropy efforts in 2024. One example of this is how our SurveyMonkey Audience product works alongside our SurveyMonkey Contribute program to create dual benefits. SurveyMonkey Contribute enables survey participants to support causes they care about by completing surveys in exchange for charitable donations to nonprofit organizations. This respondent pool is highly sought after by SurveyMonkey Audience customers, who are looking to run market research projects against a diverse group of panelists. The connectivity between Contribute and Audience shows how we can do good in the world while simultaneously growing our business

Whether through corporate gifting, employee volunteerism, product contributions, or fostering an inclusive workplace where all employees have an equal opportunity to succeed, we continued to prioritize giving back in ways that align with our values and business objectives in 2024. We recognize that progress is an ongoing journey, and one thing remains clear: our greatest opportunity is to build a business that truly matters. Together, we look forward to another year of growth with purpose, opportunity, and impact.

Eric Johnson
Chief Executive Officer

Staying the Course on Our Inclusion and Social Impact Commitments

“In 2024, we continued to embed inclusion, equal opportunity, and social impact into our core values, investing in our people and fostering a culture where employees can thrive and do their best work.”

Antoine Andrews
Chief Diversity and
Social Impact Officer

2024 was a year of growth, collaboration, and deepened impact. We strengthened our leadership development programs; expanded our inclusion and equal opportunity efforts; and reinforced our commitment to giving back to the communities we serve. In 2019, we set a path with the launch of SurveyMonkey for Good (now known as SurveyMonkey Together)—a program designed to align our business goals with social responsibility. In 2024, we continued to embed inclusion, equal opportunity, and social impact into our core values, investing in our people and fostering a culture where employees can thrive and do their best work.

Here are some accomplishments I’m especially proud of from 2024:

Investing in future leadership development

Developing talent and future leaders continues to be a priority for SurveyMonkey. Through programs like The Leadership Consortium and BetterUp, we provided employees with the tools to grow and lead—honing both their personal skills and the ability to mentor and develop others. As we look ahead, we recognize that investing in leadership development is not just an internal priority but a business imperative—the ability to nurture talent and cultivate an inclusive culture will define our success.

Fostering an inclusive and collaborative workplace

2024 marked the first in-person summit for our affinity-based Employee Resource Groups (ERGs) and location-based Diversity, Impact, and Inclusion Groups (DIIGs) in five years. This gathering was a catalyst for increased collaboration, leading to a year of intersectional events and initiatives focused on inclusivity and cultural awareness. We remain firm in our belief that creating an environment where employees feel seen, heard, and valued and are recognized for their contributions is fundamental to driving meaningful business outcomes and setting us apart from competitors.

Strengthening our impact through giving and volunteerism

In 2024, through our SurveyMonkey Contribute program, product donations and discounts, Matching Gift, and Dollars for Doers program, we donated over $2.4 million to support organizations that are at the heart of SurveyMonkey's philanthropic values. Our week of service continued to be a highlight of the year, with 322 volunteers dedicating 731 hours to about 30 organizations worldwide in just one week of time. We also continued our skills-based volunteering partnership with Taproot Foundation, through which our employees provided strategic support to nonprofits, helping them refine marketing strategies and develop project management capabilities.

Advancing our environmental responsibility

In 2024, we made significant progress in defining and advancing our environmental roadmap. We are proud to report a 21% decrease in our greenhouse gas emissions compared to last year, reflecting our ongoing efforts to improve energy efficiency and sustainability. We purchase Energy Attribute Certificates for renewable electricity to support our ongoing efforts to reduce environmental impact and uphold our commitment to sustainability.

I'm proud of how we've leveraged our employees to drive meaningful community impact. We recognize our role in shaping the future we envision. While opportunities for growth remain, I'm confident our path forward in 2025 and beyond aligns with the vision we set when we first set out on this path all those years ago.

Antoine Andrews
Chief Diversity and
Social Impact Officer

SurveyMonkey® + STG

“We’ve recognized the importance of inclusion, equal opportunity, and social impact as a cornerstone of responsible investing. SurveyMonkey’s approach resonates deeply with us. As investors, we admire and wholeheartedly support SurveyMonkey’s efforts to create meaningful change, both within the company and in the broader community. SurveyMonkey has demonstrated and proven that businesses improve when employees feel valued and recognized, and we are excited to partner with the company as it continues to make a lasting impact on individuals, organizations, and enterprises globally.”

J.T. Treadwell,

Managing Director | STG

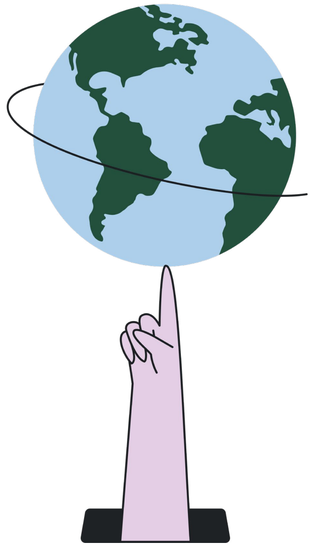

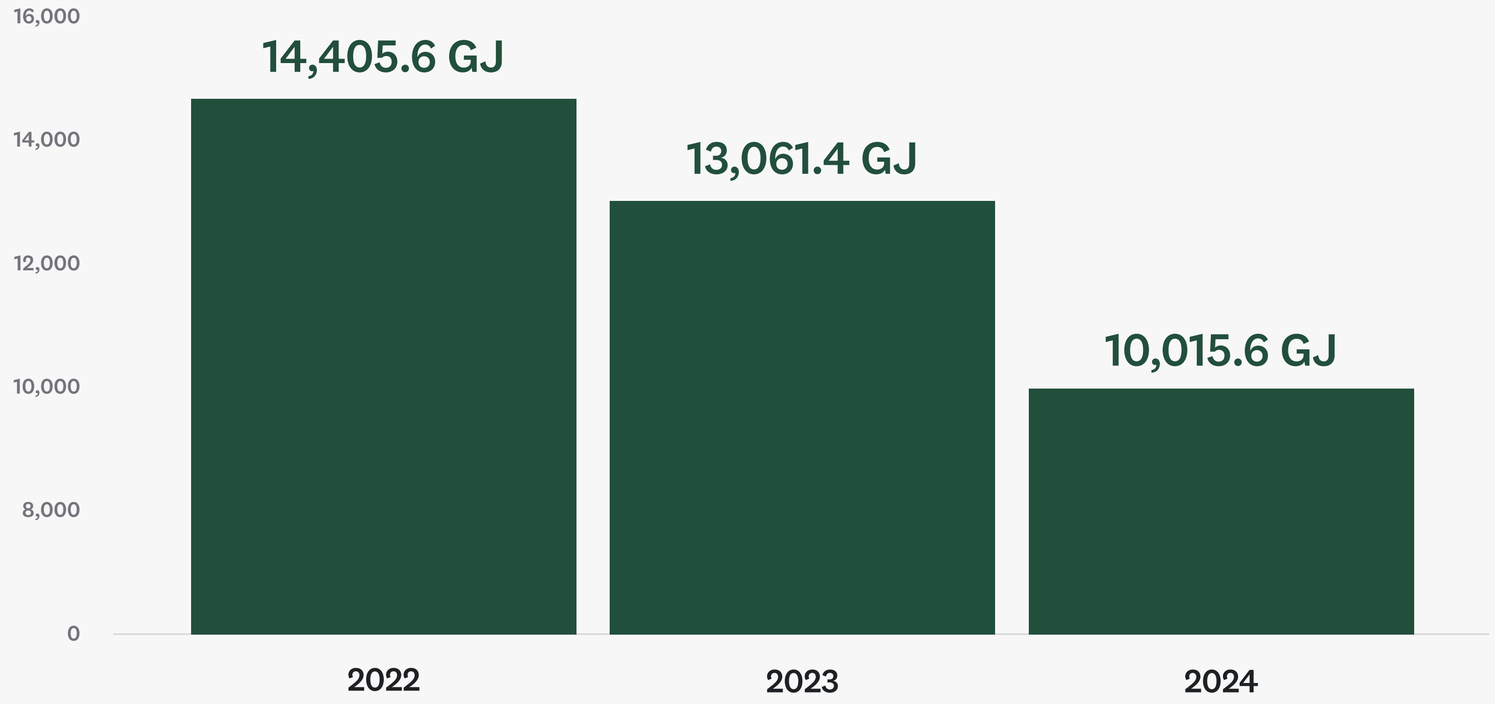

SurveyMonkey 2024 Performance Data

Environmental performance

Tracking key environmental performance indicators and understanding our impact is essential as we work to advance sustainability and contribute to a healthier planet for current and future generations.

Total Energy Consumption (gigajoules)

Environmental performance

	2022	2023	2024
Energy consumption (gigajoules)			
Total energy consumption	**14,405.6**	**13,061.4**	**10,015.6**
Non-renewable energy consumption	14,405.6	2,454.1	1,191.4
Electricity[1]	12,079.9	0.0	0.0
Fuel[2]	2,325.7	2,326.8	1,191.4
Other (heat, steam, chilled water)[3]	N/A	127.3	0.0
Renewable energy consumption	N/A	10,607.4	8,824.2
Hydroelectric/REC	N/A	10,607.4	8,824.2
Waste disposal[4] (metric tons)			
Total waste disposal	**796.8**	**93.0**	**152.0**
Landfill	291.3	57.2	83.0
Recycling/Composting	505.5	35.8	69.0
Water[5]			
Total water consumption (thousand m^3 per year)	**1338.0**	**252.2**	**9.8**

Environmental performance

	2022	2023	2024
Greenhouse Gas Emissions			
Total Scope 1, 2 & 3 emissions (metric tons of CO2e)	**23,169.66**	**20,469.06**	**16,169.95**
Scope 1 - natural gas, diesel, propane, refrigerants, gasoline	117.00	118.27	60.00
Scope 2 - purchased electricity and heating (market-based)	671.00	8.64	0.00
Total Scope 3 emissions	22,381.66	20,342.15	16,109.47
Category 1 - Purchased goods and services	19,966.61	16,267.32	10,496.00

SurveyMonkey 2024 SASB Table Update

Software & IT Services Sustainability Accounting Standard 2023*

We prioritize transparency in reporting and data-driven insights to communicate our ESG impact and alignment with the SASB Framework.

SASB Code	Accounting Metric	Answer, Cross-Reference, Omissions, and Explanations
Environmental Footprint of Hardware Infrastructure		
TC-SI-130a.1	(1) Total energy consumed, (2) percentage grid electricity, (3) percentage renewable	Environmental performance, P.10
TC-SI-130a.2	(1) Total water withdrawn, (2) total water consumed, percentage of each in regions with High or Extremely High Baseline Water Stress	Environmental performance, P.10
TC-SI-130a.3	Discussion of the integration of environmental considerations into strategic planning for data center needs	In 2024, we renewed our agreement with AWS to continue our data processing and storage on AWS's cloud infrastructure, which took effect in 2020. AWS has a long-term commitment to using renewable energy. By moving away from on premise infrastructure to the AWS Cloud, SurveyMonkey can reduce emissions due to environmental economies of scale.
Data Privacy & Freedom of Expression		
TC-SI-220a.1	Description of policies and practices relating to targeted advertising and user privacy	SurveyMonkey, our service providers, and/or other third parties that we work with place cookies when users visit our website and open emails that we send. This is designed to provide our customers with more tailored marketing content about our services and/or other services, and to evaluate whether the content is useful or effective. We also use data from these cookies and equivilent technologies to find other interested parties who may be interested in our products and services and tailor ads to those individuals. For instance, we evaluate which ads are clicked on most often, and whether those clicks lead users to make better use of our tools, features, and services. We have implemented cookie management tooling on our websites which, depending on the user's location, either allow the user to reject cookies prior to them being set (or to consent/reject use of some or all categories of cookies) or to opt out of further use of certain cookies on site landing. This cookie preference tool is intended to give our users choice as regards to which cookies and similar technology they receive and the type of experience they want. Rejecting cookies or opting out does not necessarily mean users will not receive any ads on the internet; it just means that they will not receive tailored ads based on their activities and inferred preferences on our site. Privacy Notice - Personalize marketing & cookies

SurveyMonkey 2024 SASB Table Update

Software & IT Services Sustainability Accounting Standard 2023*

SASB Code	Accounting Metric	Answer, Cross-Reference, Omissions, and Explanations
TC-SI-220a.2	Number of users whose information is used for secondary purposes	We only use information from users for the purposes of delivering the services, improving our services and marketing, and selling our services. We do not view any uses as secondary to these primary purposes as stated in our privacy notice: Privacy Notice - How we use the Personal Data we collect
TC-SI-220a.3	Total amount of monetary losses as a result of legal proceedings associated with user privacy	None
TC-SI-220a.4	(1) Number of law enforcement requests for user information, (2) number of users whose information was requested, (3) percentage resulting in disclosure	This information is confidential and SurveyMonkey does not disclose it.
TC-SI-220a.5	List of countries where core products or services are subject to government-required monitoring, blocking, content filtering, or censoring	SurveyMonkey does not have material presence in any country where our core products or services are subject to these requirements. SurveyMonkey uses industry standard automated abuse monitoring technologies for specific abusive practices on our platform but SurveyMonkey does not actively block, filter, or censor information on our platform, unless it becomes explicitly aware of an infraction under our Acceptable Use or Anti-Spam Policies: Acceptable Uses Policy
Data Security		
TC-SI-230a.1	(1) Number of data breaches, (2) percentage that are personal data breaches, (3) number of users affected	SurveyMonkey does not publicly disclose this information.
TC-SI-230a.2	Description of approach to identifying and addressing data security risks, including use of third-party cybersecurity standards	SurveyMonkey employs a defense-in-depth approach across all domains of security employing a range of security tools and personnel to Identify, Detect and Respond to data security risks. These processes are periodically audited & reviewed by independent third party security companies against Cybersecurity industry standards. SurveyMonkey is PCI, ISO, SOC2 and HIPAA compliant. In addition to those our partners benchmark us against NIST, MITRE during the assessments. SurveyMonkey Security Statement

SurveyMonkey 2024 SASB Table Update

Software & IT Services Sustainability Accounting Standard 2023*

SASB Code	Accounting Metric	Answer, Cross-Reference, Omissions, and Explanations
Recruiting & Managing a Global, Diverse & Skilled Workforce		
TC-SI-330a.1	Percentage of employees that are required a work visa	SurveyMonkey does not publicly disclose this information.
TC-SI-330a.3	Percentage of (1) gender and (2) diversity group representation for (a) executive management, (b) non-executive management, (c) technical employees, and (d) all other employees	Diversity performance, P.12-13
Intellectual Property Protection & Competitive Behavior		
TC-SI-520a.1	Total amount of monetary losses as a result of legal proceedings associated with anti-competitive behavior regulations	None
Managing Systemic Risks from Technology Disruptions		
TC-SI-550a.1	Number of (1) performance issues and (2) service disruptions; (3) total customer downtime	(1) Performance Issues: Maintenance events and high traffic occurrences may have resulted in minor performance degradation, however, the system availability remained above 99.99% and there were no specifically notable performance events. (2) Service Disruptions: SurveyMonkey systems and services were greater than 99.99% available on a month-over-month basis as published to our customers. Disruptions were related to migration to a more performant infrastructure implementation and may have resulted in momentary service disruptions to a subset of users, while there was an 8-hour planned service interruption in December to migrate database infrastructure (3) Total customer downtime: SurveyMonkey systems and services were greater than 99.99% available on a month-over-month basis (meaning there are less than 50 minutes of total downtime excluding planned maintenance events).
TC-SI-550a.2	Description of business continuity risks related to disruptions of operations	SurveyMonkey successfully completed the annual PCI 3.2.1 and ISO/IEC 27001:2013 certification reviews, and achieved SOC 2 Type 2 certification. In addition, the company conformed to the requirements of the HIPAA Security rule and HITECH Breach notification requirements as described in HIPAA PART 164 of CFR 45. Furthermore, one of the requirements for compliance is the disaster recovery standard and testing, which is described in our Security Statement.
